Dear Cece,

I am thrilled with my website! It is an excellent, well put together website... “a class act”, which is what I was looking for in website development.

Thank you very much for being so patient with me while I gathered all my information and ideas for the site. Our goal was to have the new site completed by the end of 2006, and you did it!

Your professionalism is very apparent and I hope my colleagues will work with you as well. This has been a delightful rewarding experience.

Warmly,
